**Subject:** Fw: Dimock Residential GW Site Preliminary Results - Round 2 (Metals Only)

See data chart below.....

Note: manganese level is very high..... arsenic level is still below MCL and lithium value is well below our acute threshold.....

**Subject:** Dimock Residential GW Site Preliminary Results - Round 2 (Metals Only)

Preliminary results for the Dimock Residential GW Site - Round 2 sampling are included in the attachment.

Results at or above trigger levels:

Metals - Two samples had results above trigger levels (HW06 - arsenic, lithium and sodium and HW08 - manganese).
